

We are excited to be celebrating our 75th anniversary and are proud to announce the successful management transition to the 3rd generation of our family owned business.

We continue to be highly focused on our company values:

- Quality „Made in Germany“
- Development and production of sustainable products
- Design robust and durable clinical chemistry analyzers
- Most importantly – our valued customers

The family thanks you and deeply values the long relationships and loyalty of our customers and look forward to collaborating on future projects and opportunities.

OUR COMPANY'S HISTORY

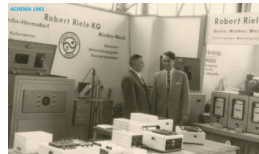

1946

RIELE was founded by Robert and Otto Riele as a wholesale business for hospital and laboratory equipment in East Berlin

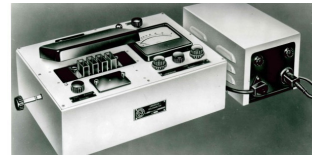

1952

Beginning of the production of optical, mechanical devices, e.g. photometers for clinical-chemical analyses

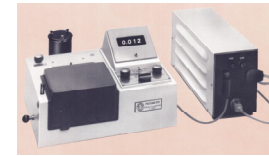

1966

MK 2 and MK 3 very popular and successful in Germany

1970

First photometers with digital display in Germany: MK 40, MK 45, MK 50, MK 55

1978

Photometer 4010, soon distributed all over the world by Boehringer Mannheim GmbH

1982

Production of the Spectroquant-Rilatron analysis system for E. Merck Darmstadt

1986

The Behring Chromotimer is introduced – a 4-channel photometer with a built-in incubation block for all coagulation tests

1995

Launch of the all-time favourite Photometer 5010

1998

RIELE Photometer PM 750 and PM 650

1999

Worldwide distribution of Photometer 4010 and Photometer 5010 from Berlin-Hermsdorf

2003

Certification to DIN EN ISO 13485

2004

Introduction of Photometer 4040

2011

Introduction of Photometer 680

2020

25 Years Photometer 5010

2021

RIELE celebrates 75 years. Successful transition to the 3rd generation
